Harbor Expansion Update

Work continues on the new docks (which are still CLOSED to the public for safety!), and the electricians are installing shore power pedestals which will give visitors 15, 30 and 50 amp service, along with new light standards throughout the Harbor. These new lights will feature super-efficient L.E.D. fixtures that will also be programmable, to offer the right amount of light at the right times. Adjustment of the mooring lines and other work with the big barge crane will also ramp back up in coming weeks, so keep an eye out! Project completion is slated for early 2014.

If your group or Club is interested in visiting the Harbor at Langley in 2014 please contact the Harbormaster, we are quickly filling our calendar.

Limited Boat Launch Clearing November through February

During this time period, per WDFW requirements for the protection of spawning Pacific Sand Lance, a pre-cleaning inspection must be conducted to check for Sand Lance eggs. If present, the ramp may not be cleaned or the eggs disturbed. Each testing process will take between 2 to 7 days. We will be testing for eggs in order to allow ramp cleaning about twice each month, as tides and conditions allow. For ramp information, contact the Harbormaster at 360 221-1120.
